Eval. Notes: On April 26th 2011, I (Jeff Salabritas) conducted an inspection at Calpine Missouri Avenue Energy Center, which is located at 2129 Bacharach Boulevard in Atlantic City. Calpine purchased a portion of the site from Pepco Holdings Inc. (operating as Conectiv Energy) on 7/1/10. ISRA was triggered (Program Interest #: 011649, ISRA Case #: E20100095) during the real estate transaction. This facility has been issued EPA Identification #: NJD98148554. Calpine operates three kerosene fired turbines used to generate electricity (peaking units) at this location. No hazardous waste is currently being generated or accumulated by Calpine at this location. According to a hazardous waste manifest search conducted prior to the inspection, no hazardous waste has been shipped off-site since Calpine purchased a portion of the property in July 2010. Used oil is currently being shipped to FCC Environmental (Wilmington, DE) for recycling. Spent fluorescent lamps are shipped to Veolia Technical Solutions (Philadelphia, PA) for recycling. No hazardous waste, universal waste or used oil violations were observed.

No Linked Violations
